Simple, comprehensive veterinary critical care testing

Introducing a technology evolution in veterinary critical care testing with a simple, fast, and less expensive whole blood analyzer.

- Comprehensive Critical Care Menu:
pH, PCO₂, PO₂, Na, K, Cl, iCa, iMg, Glu, Lac, Hct, tHb, TCO₂, SO₂%, O₂HB, COHb, MetHb, HHb, tBil, HbF
- Results in 60 Seconds
- Automated Quality Control and Electronic Quality Monitoring
- Maintenance-Free MicroSensor Card Technology

**Improved practice profitability through
in-house diagnostics**

**Simple interface to veterinary practice management systems
for optimized billing**

**Maintenance-free system keeps clinical staff focused
on patient care**
